

# Marginal Way Preservation Fund

2017

## Annual Report

The Board's efforts to grow the Endowment reached a major milestone with the value of the Fund's assets passing through the million-dollar level at the end of December. This success was due to the donors of the 111 plaque spaces, the diligence of the Fund's portfolio manager, Morgan Stanley, the efforts of the Executive Director Jeanne Roche and the work of the Board of the Directors of the Marginal Way Preservation Fund.

A major repair to the Marginal Way, which involved the upgrade of the Revetment located near the lighthouse on the Marginal Way, was near completion at the end of 2017. An anonymous donor provided the funds required, completing the construction of the upgrade to the revetment. It is expected that this construction will be completed in January 2018. The Marginal Way Committee will replant the appropriate shrubbery at the project site in the spring of 2018.
